

WULFF

CONTRACT WORKROOMS

We have a great track record installing new window covering in Choice Hotels properties.

Our Quality Inn window coverings are made of the to stand the test of time. We just replaced drapes in a Quality Inn in New Mexico that we had install in 2002. The drapes, though dated in color and design, were still in great condition. We can make the new QI designs or we can make custom designed window coverings.

And we can fabricate all your custom sized and custom design BOH and Common Area Window Coverings as well. We field measure every window so every window is perfect. And we have the best installers.

There are 3 good designs. Sheer drape over a blackout drape, a decorative fabric blackout drape over a standard sheer, or a decorative fabric blackout drape over a sheer roller shade. Or you can do something more custom.

Decorative Sheer + Standard Blackout

Roller Sheer + Decorative Blackout

Decorative Blackout + Standard Sheer
