FAIRFIELD GEN 4.5

FAIRFIELD INN GUESTROOM WINDOWS

On top are two fixed beige blackout ripplefold side panels on black H-Rail side panel rods. Under that is a beige blackout ripplefold drape pair hung from H-Rail rod operated with clear batons over the PTAC. Inside the window is a translucent printed roller shade, giving good light and great privacy. ADA rooms get hoop batons on the drape pair

and motorization on the roller shade. Marriott has a really great concept on this window covering. Very low maintenance and high style. Print ideas on the next pages.
